WAXES

## Natural Oils and Waxes Ensure a Safe Environment for Your Family

Hardwaxes are highly effective coatings that consist of natural plant oils and waxes that have been used for the protection and enhancement of timber for centuries.

We supply a comprehensive range of products that are specially designed to suit any interior applications, including floors, furniture, children's toys, benchtops, feature timber paneling or any timber surface.

## Quality German Manufactured Products

### Ease of Application

- High coverage rates up to 20 – 30m<sup>2</sup> per litre depending on timber species.
- Easy 2 coat application.
- Surface may be used with care after 24 hours.

### Benefits of Hardwax Oils

- Durable and easily maintained.
- Micro-porous allows the timber to breathe, which means climatic changes are accommodated.
- Full body finish without creating a skin so each board can move individually without the concern of edge bonding.
- Water resistant, dirt resistant, anti-static.
- Will not flake, blister or peel.
- Spot repairable, no need to re-sand your whole floor to repair or replenish.
- Replenishable with a simple maintenance coat.
- As there is no water in the product they do not "grain raise" on application.
- Enhances the grain of the timber, tends to be non-yellowing.
- Developed to meet the specific requirements of Australian timbers.

## WHITTLE WAXES Product Range

**HARDWAX OIL:** An open-pored, moisture-regulating, colourless, professional surface coating.

**TEAK OIL:** A natural timber preservative made of resilient, microfine, weather-resistant, water-soluble resins.

**BIO FLOOR WAX:** Classic paste wax for the coating and maintenance of timber floors and furniture.

**OBJECT OIL:** For all heavily used interior timber floors. For rough or caustic-treated timbers, also for OBS boards and exotic timber.

**ONECOAT 100:** 100% solvent-free, natural oil-based timber coating, it is an open-pored, moisture regulating, professional surface coating for all internal timber surfaces.

**FLOOR CARE:** Concentrated floor care cleans and maintains your floor in one easy process.

## TREATEX Product Range

**TREATEX TRADITIONAL:** Durable hardwax finish that is easily maintained. Available in Matte, Lustre, Satin and Gloss.

**TREATEX ECO:** Natural eco-friendly surface treatment for wooden flooring as a one-coat system

**TREATEX COLOURS:** Wood doesn't always match the other colours in your home so Treatex have developed a range of colour tones to assist in the matching process. As various timbers will take colours differently, we do advise to do a sample before applying to the whole area. **NOTE: All Treatex Colour Tones can be mixed.**

The swatches shown at left are indicative only. Due to limitations of the printing process they shouldn't be taken as an accurate reference. Please contact us for further information on colours.

Safe  
and Easy  
to Apply

- Free from aromatics.

■ Harmless  
after drying.

■ Saliva &  
Sweat Safe.

■ Suitable for  
Flooring  
& Furniture.

## When Your Environment Matters

## Environmentally Friendly Finishes and Expert Advice

In an increasingly environmentally aware market place, consumers, designers, builders, and floor coaters are far more demanding of products that enhance and at the same time are healthy, sustainable and ecofriendly.

Whittle Waxes now has polishers, flooring suppliers, timber companies, architects, designers and specifiers all enjoying the benefits of our high quality products.

We continue to conduct extensive research in new products and maintain a close eye on international developments to ensure the best products are available for the Australian market.

We want to be as honest and transparent to consumers and the trade about the products that are introduced to your home or commercial premises.

We believe Whittle Waxes is the first independent coating importer to list all the ingredients on our Whittle Waxes containers as well as on our web-site and our technical instructions and are committed to providing the best timber care and protection without having a harmful impact on your health or the environment.
